

Astro-Physics Spectacular Summer Showcase

Summer is here, the sky is clear (hopefully), and we've got new products to help get you out under the stars!

Check out these new offerings

**SBD13SS &
SBD16SS**
*13" & 16" Side-by-Side
Plate for D-Series Saddle
Plates*

Great for a night when you want to have some fun with two scopes, these plates let you mount two instruments next to each other.

SBD2V
*12" Vixen Dovetail
Converter*

It's a sliding bar!
It's a saddle plate!
It's both!

This helpful plate adapts instruments that have a Vixen-style bar so they can be clamped into a D-series style saddle plate.

Q12700

*Polar Alignment Scope Cover -
400/900/1200 mounts*

Now you can leave your polar scope protected inside your mount when stored. This machined aluminum cover threads into all 400 and 1200 mounts, as well as 900 mounts shipped prior to October 2005.

Q9700

*Polar Alignment Scope Cover - 900GTO shipped
since October 2005*

Have a newer 900GTO mount? Then you probably need this polar scope cover. Due to a redesign of the RA axis of the 900GTO, this cover has a slightly larger diameter than the Q12700.

Do you dislike little red caps? We've got you covered!

M12666

*RA Sight Hole Cover for 1200/400 mounts and
900 mounts shipped prior to October 2005.*

Use this sight hole cover on the rear of your Right Ascension axis on most 1200 and all 400 mounts, as well as 900 mounts shipped prior to October 2005.

M9403

*RA Sight Hole Cover for all 900GTO
mounts shipped since October 2005.*

Use this sight hole cover on all 900GTO mounts shipped since October 2005. Due to a redesign of the RA axis of the 900GTO, this cover has a slightly larger diameter than the M12666.

A1226F

Felted Cover for the Astro-Physics 2.7" Field Flattener Bayonet Side

This cover slips over the bayonet side of our 2.7" field flattener. It will also fit any accessory that has a 3.9" outer diameter. This part is included in the 2.7" Field Flattener Cover Set, **CSET27FF**.

A1225

Threaded Cover for 2.7" Field Flatteners and Accessories with Male Threads

Use this thread-on cover on the other side of your 2.7" field flattener and with a variety of adapters and extensions that have the A-P 2.7" external thread. This part is included in the 2.7" Field Flattener Cover Set, **CSET27FF**.

A1005

Threaded Cover for 2.7" Drawtubes and Accessories with Female Threads

Use this thread-in cover to prevent dust accumulation in your focuser or on other accessories that have the A-P 2.7" internal thread.
