## **Keypad is now an option !**

If you operate your mount with a computer, you don't need the Keypad.  
If you own multiple AP mounts and use one at a time, one Keypad may be enough.

## **Additional \$500 off mounts in stock with GTOCP3 !**

With the GTOCP4 on the horizon, we have too many GTOCP3 control boxes on the shelf.  
Use your GTOCP3 for years to come and pocket the savings or upgrade to the GTOCP4 for  
special price, your choice.

Special offer only applies to mounts currently in stock.

## **Upgrade to GTOCP4 for special reduced price !**

Mounts purchased during the "Best Deal Ever" promotion can upgrade to the GTOCP4 for just  
\$700 (normal price=\$1,195)

## **Absolute Encoders**

Please note that the 1100GTO-AE and 1100GTO-AEL mounts and 1600GTO Absolute Encoder will not be available again until after the GTOCP4 is available. The good news is that all the functions of the GTOAE will be integrated into the GTOCP4 control box. There will be fewer cables and a more attractive price due to these savings. So, hold on for a while longer. You won't be disappointed.

**GTOCP4 Introductory Upgrade Price  
for Mounts Already in the Field**
